My business and my family have had Rick on retainer for the last ten years. In this time he has helped me retain experienced outside counsel for a complicated real estate gift transfer, performed a review of our living wills and associated end of life documents, found a friend the right attorney for probate, developed a process and procedure associated with our clients' use of our business equipment; all in all just the daily needs of almost anyone. I have been a witness for him in a divorce trial, a case which involved a large amount of assets. Rick is most effective for me because of his calm demeanor, his skill and knowledge and, just as important, his deep connections with the local legal community.

Dyson helped guide me through a very difficult divorce. Rick's knowledge of the judicial system, his professional manner, and endless patience got me to a much better place. I would highly recommend him.
